

Design for the Intersection at Tanana Loop and East Tanana Drive, and for Adjacent Areas

To: Charles K. Wadsworth

From:

Date: March 11, 1999

Subject: MPC Recommendation Related to the UAF's Design for the Intersection of Tanana Loop and East Tanana Drive, and for Adjacent Areas

The "environmental and physical" impact of the intersection of Tanana Loop and East Tanana Drive is not significant. The intersection of College Road and University Avenue, which is a major arterial road, has been identified as a "critical area" by the Planning Commission. The intersection of Tanana Loop and East Tanana Drive is not a "critical area" and therefore does not require a special study. The intersection of Tanana Loop and East Tanana Drive is a "minor intersection" and therefore does not require a special study. The intersection of Tanana Loop and East Tanana Drive is a "minor intersection" and therefore does not require a special study.

The MPC is satisfied with the design of the intersection of Tanana Loop and East Tanana Drive. The design of the intersection of Tanana Loop and East Tanana Drive is satisfactory. The design of the intersection of Tanana Loop and East Tanana Drive is satisfactory. The design of the intersection of Tanana Loop and East Tanana Drive is satisfactory.
