

## ***Use of Non-Assignable Circulation Areas in UAF Buildings***

To: Chancellor Marshall Lind

From: John D. Craven, Chair  
UAF Master Planning Committee

Date: December 22, 2000

Subject: MPC Recommendations Related to Standards for Use of Non-Assignable Circulation Areas  
in UAF Buildings

### **Background**

The question of what standards should be applied to non-assignable space came up earlier through an issue raised by the Journalism/Broadcasting Department. The department had requested that the student lockers, which had been located in the first-floor hallway prior to the Bunnell Building deferred maintenance project, be brought back and reinstalled in the hallway. The issue was brought to the MPC primarily for considerations regarding esthetics and use of non-assignable space. The MPC's recommendation to the provost for a short-term solution was that the lockers could be installed in the hallways temporarily and that the department should find a location in their assigned area once

3. The entrances to all academic departments, administrative units, etc. that occupy a building must have a designated main entrance and be clearly identified at that entrance. This should be
