

Aurora Z Art

Create your own artwork inspired by the northern lights!

Materials Needed

Aurora stencil (or draw your own), black paper, colored chalk, scissors.
Optional: Tissues.

Instructions:

Step 1: Cut out the aurora stencil. If making your own, cut a strip of white paper or cardstock in a wavy aurora shape.

Step 2: Color the top edge of the stencil with colored chalk.

Step 3: Place the colored stencil on your black paper, chalk side up. Smudge the chalk onto the black paper using your finger or a tissue.

Step 4: Repeat using different colors to fill the sky with the colors of the aurora.

Step 5: Add a cabin, trees, campfires, or other things you might see under the northern lights. Be creative!
